CAREER OBJECTIVE

A motivated and adaptable individual with a strong desire for continuous learning and a knack for problem-solving. Eager to apply my knowledge and creativity to contribute meaningfully in a professional setting while growing into a role that adds value to the organization.

EDUCATION

•Ashoka Women's Engineering College, Kurnool	2023-2027
B.Tech in Computer Science and Engineering	Percentage:82.27
•Deeksha Junior College, Yemmiganur	2021-2023
AP Board of Intermediate in MPC	Percentage: 90
•Zilla Parishad High School, Yemmiganur	2021
AP Board of Secondary Education.	Percentage:94.33

TECHNICAL SKILLS

- **Programming Languages** :JAVA, PYTHON, C
- **Web Technologies** : HTML, CSS, JavaScript(Learning).
- **Core Skills** : Data Structures and Algorithms
- **Data Visualization** : Excel, Word, PPT
- **Tools**: VS Code, GitHub

PERSONALITY TRAITS

- **Growth Mindset** - Always open to learning and improving through feedback
- **Problem Solving Orientation** - Approach challenges with structured solutions
- **Time Management** - Ability to meet deadlines under pressure
- **Adaptability** - Comfortable with change and learning new technologies quickly

PROJECTS

Login Page with Validation Using Web Technologies

DEC 2025

Role Played: Team member

Language/Technologies: HTML,CSS,JAVASCRIPT

- Developed a responsive login page using HTML and CSS for user interface design.
- Implemented client-side validation using JavaScript to verify user credentials.
- Designed input fields for username and password with basic authentication logic.
- Displayed success and error messages based on user input.
- Improved user experience with simple and clean UI design.Aims to save lives by enabling quicker emergency vehicle movement through traffic.

Simple Calculator Using Python

FEB 2026

Role Played: Developer

LANGUAGES: Python

- Developed a command -line based on calculator using Python
- Implemented basic arithmetic operations such as addition, subtraction, multiplication and division.
- Used conditional statements(if-elif) to perform operations based on user choice.
- Handled edge cases like division by zero to avoid runtime errors.
- Enabled user interaction through input prompts and displayed results dynamically.

Simple Chatbot Using Python

Role: Individual Contributor

MAR 2026

LANGUAGES : Python

- Developed a basic chatbot using Python for interactive user communication.
- Implemented continuous conversation using an infinite loop (while loop).
- Used conditional statements to generate responses based on user input.
- Handled multiple user queries like greetings and basic questions.
- Designed the chatbot to terminate the conversation using specific keywords (e.g., "bye").

TRAININGS ATTENDED

GRADSREET - DATA STRUCTURES AND ALGORITHM PROGRAM

- Learned advanced problem-solving techniques in **DSA**, system design basics, and participated in mock technical contests. Topics covered: **Arrays, Trees, Graphs, Dynamic Programming**, and more.
- Solved 250+ curated coding problems and implemented problems in JAVA

INTERNSHIPS

Python Intern – Internz Learn

Aug 2025 – Sep 2025

- Learned Python fundamentals
- Developed mini projects (calculator, chatbot)
- Improved coding and problem-solving skills

Java Intern – Tech Vedhu (Ongoing)

Mar 2026 – Apr 2026

- Learned Java fundamentals and OOP concepts
- Developed basic Java programs
- Improved coding and logical skills

CERTIFICATIONS

- Certified in Quantum fundamentals 2025-2026
- Certified in Introduction to C in SoloLearn 04 Sept 2025
- Certified in Python Completion Course in InternzLearn 09 Sept 2025
- Java internship Certification From Tech Vedhu 05 April 2026
